INDEPENDENT AUDITOR'S REPORT

Franklin County Board Franklin County Courthouse Benton, IL 62812

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Franklin County, Illinois as of and for the year ended November 30, 2017, and the related notes to the financial statements, which collectively comprise Franklin County, Illinois' basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of Franklin County, Illinois, as of November 30, 2017, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the IMRF schedules of pages 47 -50, and the budgetary comparison information on pages 51 - 65 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Management has omitted the Management's Discussion and Analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of the financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Franklin County, Illinois' basic financial statements. The combining and individual fund statements and schedules, and the listing of individual funds, are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual fund statements and schedules and the listing of individual funds are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund statements and schedules and the listing of individual funds are fairly stated in all material respects in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated May 31, 2018, on our consideration of Franklin County, Illinois' internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering Franklin County, Illinois' internal control over financial reporting and compliance.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMEDIN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Franklin County Board Franklin County Courthouse Benton, IL 62812

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Franklin County, Illinois, as of and for the year ended November 30, 2017, and the related notes to the financial statements, which collectively comprise Franklin County, Illinois' basic financial statements and have issued our report thereon dated May 31, 2018.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered Franklin County, Illinois' internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Franklin County, Illinois' internal control. Accordingly, we do not express an opinion on the effectiveness of Franklin County, Illinois' internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. We did identify certain deficiencies in internal control, described in the accompanying schedule of findings and questioned costs that we consider to be significant deficiencies. [Finding 1:2017-1 and Finding 2:2017-2].

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Franklin County, Illinois' financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

We noted certain matters that we reported to management of Franklin County Government in the attached schedule of findings.

Franklin County, Illinois' Response to Findings

Franklin County, Illinois' response to the findings identified in our audit is described in the accompanying schedule of findings and questioned costs. Franklin County, Illinois' response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Reconciliation of the Governmental Funds, Statement of Revenues,

Expenditures, and Changes in Fund Balances to the Governmental

Activities in the Statement of Activities

For the Year Ended November 30, 2017

Amounts reported for governmental activities in the statement of activities differ because:

Net Change in Net Position of Governmental Activities

Net Change in Fund Balances of Governmental Funds	\$ (690,789)
Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the current period.	442,198
The net effect of various miscellaneous transactions involving capital assets to increase net position.	-
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.	-
Bond proceeds provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the statement of net position. Repayment of bond principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position. This is the amount by which proceeds exceeded repayments.	(309,863)
Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds.	(243,060)
Not Change in Net Position of Governmental Activities	\$ (801,514)

NOTES TO BASIC FINANCIAL STATEMENTS

Notes to Basic Financial Statements
November 30, 2017

NOTE A - Summary of Significant Accounting Policies

Franklin County (the "County") was incorporated on January 2, 1818 under provisions of the State of Illinois and operates as a second class county. The County has a population of approximately 39,500 residents and covers an area of 430 square miles. The County operates under the Township form of government with nine elected board members, and provides the following services: general government, public safety, public welfare, judiciary and court related, and transportation.

The accounting policies of the County conform to accounting principles generally accepted in the United States of America as applicable to governments except as noted. The Governmental Accounting Standards Board (GASB) is the authoritative standard setting body for the establishment of governmental accounting and financial reporting principles. The accounting and reporting framework and the more significant accounting principles and practices of Franklin County Government are discussed in the subsequent sections of this note. The remaining notes are organized to provide explanations, including required disclosures, of the County's financial activities for the fiscal year ended November 30, 2017.

1. Financial Reporting Entity

The County defines its reporting entity in accordance with provisions established by the Governmental Accounting Standards Board (GASB). GASB requirements for inclusion of component units are based upon whether the County's governing body has a significant amount of financial accountability of another entity. The County is accountable if it appoints a voting majority of an entity's governing body and is able to impose its will on that entity, or there is a potential for the entity to provide specific financial benefits to, or impose specific financial burdens on the County. Based on these requirements, no other entities are considered to be component units of the County. The government-wide financial statements incorporate all governmental activities for which the County is financially accountable.

Related organizations are excluded from the financial reporting entity because the County's accountability does not extend beyond making board appointments. The County has no significant influence over the management, budget or policies of the related organizations.

2. Government-Wide and Fund Financial Statements

Government-Wide Financial Statements

The government-wide financial statements (i.e., the *statement of net position* and the *statement of activities*) report information on all of the non-fiduciary activities of the primary government.

The Statement of Net Position presents the reporting entity's non-fiduciary assets and liabilities, with the difference reported as net position. Net position is reported in three categories:

Notes to Basic Financial Statements-Continued
November 30, 2017

NOTE A - Summary of Significant Accounting Policies - Continued

2. Government-Wide and Fund Financial Statements - Continued

Government-Wide Financial Statements - Concluded

Investment in Capital Assets, Net of Related Debt - consists of capital assets, net of accumulated depreciation and reduced by outstanding balances for bonds, notes, and other debt that are attributable to the acquisition, construction, or improvement of those capital assets.

Restricted Net Position - results when constraints placed on net position use are either externally imposed by creditors, grantors, contributors, and the like, or imposed by law through constitutional provisions or enabling legislation.

Unrestricted Net Position - consists of the net amount of the assets, deferred outflows of resources, liabilities, and deferred inflows of resources that are not included in the determination of net investment in capital assets or the restricted component of net position.

The statement of activities demonstrates the degree to which the direct expenses of a given function of segment is offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include (1) charges to customers or applicants who purchase, use or directly benefit from goods, services, or privileges, provided by a given function or segment, and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Other items not properly included among program revenues are reported instead as general revenues. Major individual governmental funds are reported as separate columns in the fund financial statements.

Governmental Fund Financial Statements

Governmental fund financial statements include a *Balance Sheet* and a *Statement of Revenues*, *Expenditures*, and Changes in Fund Balances for all major governmental funds and non-major funds aggregated. An accompanying schedule is presented to reconcile and explain the differences in fund balances and changes in fund balances as presented in these statements to the net position and changes in net position presented in the government-wide financial statements. The County has presented certain funds as major funds because the County believes the financial position and activities of these funds are significant to the County as a whole.

The fund financial statements present information about the County's funds, including its governmental and fiduciary funds. Separate statements for each fund category – government and fiduciary – are presented. The emphasis of fund financial statements is on major governmental funds. All remaining governmental funds are aggregated and reported in a separate column.

Notes to Basic Financial Statements-Continued November 30, 2017

NOTE A - Summary of Significant Accounting Policies - Continued

2. Government-Wide and Fund Financial Statements - Continued

Fund Balance Classification

The County implemented the provisions of GASB Statements No. 54, Fund Balance Reporting and Governmental Fund Type Definitions. The purpose of GASB is to improve the consistency and usefulness of the fund balance information to the financial user. The statement establishes fund balance classifications that comprise a hierarchy based primarily on the extent to which the organization is bound to honor constraints on the specific purpose for which amounts in the funds can be spent.

The classifications used in the governmental fund financial statements are as follows:

Nonspendable - This classification includes amounts that cannot be spent because they are either not in spendable form, or are legally or contractually required to be maintained intact. The County has classified redevelopment inventories and prepaid items as being nonspendable, as these items are not expected to be converted to cash within the next year.

Restricted - This classification includes amounts for which constraints have been placed on the use of the resources either externally by creditors (such as through a debt covenant), grantors, contributors, or law or regulations of other governments, or by law through constitutional provisions or enabling legislation. Debt service resources are to be used for future servicing of the revenue note and are restricted through debt covenants.

Committed - This classification includes amounts that can be used only for specific purposed pursuant to constraints imposed by formal action of the County Board. These amounts cannot be used for any other purpose unless the County Board removes or changes the specified use by taking the same type of action (ordinance or resolution) that was employed when the funds were initially committed. This classification also includes contractual obligations to the extent that existing resources have been specifically committed for use in satisfying those contractual requirements.

Assigned - This classification includes amounts that are constrained by the County's intent to be used for a specific purpose but are neither restricted nor committed. This intent can be expressed by the County Board or through the County Board delegating this responsibility through the budgetary process. This classification also includes remaining positive fund balances for all governmental fund except for the General Fund.

Unassigned - This classification includes the residual fund balance for the General Fund and the amount established for Minimum Funding which represents the portion of the General Fund balance that has been established to be used for debt service or in emergency situations. A majority vote of the County Board is required to authorize the spending of any of these funds for any reason. The unassigned classification also includes negative residual fund balances of any other governmental fund.

Notes to Basic Financial Statements-Continued
November 30, 2017

NOTE A - Summary of Significant Accounting Policies - Continued

2. Government-Wide and Fund Financial Statements - Continued

Fund Balance Classifications - Concluded

The County would typically use restricted fund balances first, followed by committed resources, and then assigned resources, as appropriate opportunities arise, but reserves the right to selectively spend unassigned resources first to defer the use of these other classified funds. The County Board has not adopted a formal minimum fund balance policy. As required by GASB 54, Fund Balance Reporting and Governmental Fund Type Definition, the County is to formally set a Stabilization Policy to ensure sound financial management and fiscal accountability. The County is to formally set aside amounts for use in emergency situations or when revenue shortages or budgetary imbalances arise. However, these emergency situations should not be routine and should be sufficiently detailed to outline the types of nonrecurring circumstances that merit the use of funds.

Reconciliation of Government-Wide and Fund Financial Statements

The governmental fund income statement includes reconciliation between net change in governmental fund balances and net change in net position of governmental activities as reported in the government-wide statement of net position. The difference of (\$110,725) is summarized as follows:

Current Year Purchases Depreciation Expense Loan Proceeds Less Loan Repayments Pension Expense Compensated Absences Other	\$	1,050,988 (608,790) (309,863) (324,480) 86,505 (5,085)
Total	<u>\$</u>	(110,725)

The governmental fund balance sheet includes reconciliation between total governmental fund balances and net position of governmental activities as reported in the government-wide balance sheet. The difference of (\$1,911,277) is summarized as follows:

Capital Assets	\$ 5,968,536
Net Pension Obligation-SLEP	33,734

Deferred a choich contribution	
Total	\$ (1,911,277)
IUI	

Notes to Basic Financial Statements-Continued November 30, 2017

NOTE A - Summary of Significant Accounting Policies - Continued

2. Government-Wide and Fund Financial Statements - Continued

Fiduciary Fund Financial Statements

Fiduciary fund financial statements include a Statement of Fiduciary Net Position and a Statement of Changes in Fiduciary Net Position. The County's fiduciary funds represent Agency funds, which are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations. The Agency funds are accounted for on the accrual basis of accounting and are excluded from the Statement of Changes in Fiduciary Net Position. Fiduciary funds also represent the pension trust funds. These funds are used to report resources that are required to be held in trust for the members and beneficiaries of defined benefit pension plans, defined contribution plans, other postemployment benefit plans, or other employee benefit plans. The measurement focus is upon determination of and changes in financial position rather than upon net income. Private-purpose trust funds are also included in the fiduciary fund financial statements. These trust funds are used to account for trust arrangements under which principal or interest benefit specific individuals, private organizations, or other governments instead of the reporting government.

Governmental Funds

Governmental funds are those through which most governmental functions are financed. The acquisition, uses, and balances of the County's expendable financial resources and the related liabilities are accounted for through governmental funds.

The following are the County's governmental major funds:

General Fund - The General Fund is the general operating fund of the County. All general tax revenues and other receipts not allocated by law or contractual agreement to another fund are accounted for in this fund. This fund provides for general operating expenditures, fixed charges, and capital improvement costs not paid through other funds.

Special County Bridge Fund - The Special County Bridge Fund is a special revenue fund used for the receipt and disbursement of local funds for county road and bridge construction and repair.

Motor Fuel Tax Fund - The Motor Fuel Tax Fund is a special revenue fund used for the receipt and disbursement of tax funds for county road, maintenance, construction, and repair.

Federal Aid Matching Fund - The Federal Aid Matching Fund is a special revenue fund used for the receipt and disbursement of local funds for road maintenance matching program.

Joint Bridge Fund - The Joint Bridge Fund is a special revenue fund that uses local funds for county bridge construction and repair.

Juvenile Detention Center Fund - The Juvenile Detention Center Fund is a special revenue fund used to account for the receipts and subsequent disbursements of fees charged and reimbursements received for housing juvenile inmates.

Notes to Basic Financial Statements-Continued November 30, 2017

NOTE A - Summary of Significant Accounting Policies - Continued

2. Government-Wide and Fund Financial Statements - Concluded

Governmental Funds - Concluded

County Highway Fund - The County Highway Fund is a special revenue fund used to account for the receipt and disbursement of local funds for county road general maintenance and other costs.

Special Revenue Funds are used to account for the proceeds of specific revenue sources (other than expendable trusts or major capital assets) that are legally restricted to expenditures for specified purposes.

3. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Government fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period of soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Some revenue sources provided by the State of Illinois have been delayed beyond 60 days. For the County, this revenue is still considered available since the revenue is collected and earned during the fiscal year. Expenditures generally are recorded when a liability is incurred, as under accrual accounting.

Grants and entitlements and interest associated with the current fiscal period are all considered being susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered measurable and available only when the County receives cash.

Revenues - Exchange and Non-Exchange Transactions

Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. Generally, available means expected to be received within 60 days of the fiscal year-end. Under the modified accrual basis, only interest is considered to be both measurable and available at fiscal yearend.

Notes to Basic Financial Statements-Continued November 30, 2017

NOTE A - Summary of Significant Accounting Policies - Continued

3. Measurement Focus, Basis of Accounting, and Financial Statement Presentation - Concluded

Revenues - Exchange and Non-Exchange Transactions - Concluded

Non-exchange transactions in which the County receives value without directly giving value in return, includes grants and donations. On an accrual basis, revenue from grants and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the fiscal year when use is first permitted, matching requirements, in which the County must provide local resources are provided to the County on a reimbursement basis. On a modified accrual basis, revenue from non-exchange transactions must be available before it can be recognized.

Expenses/Expenditures

On an accrual basis of accounting, expenses are recognized at the time they are incurred. The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. In the government-wide financial statements, expenses are classified by function for government activities. In the fund financial statements, governmental expenditures are classified by the following character categories: Current (further classified by function), Capital Outlay, and Debt Service.

Interfund Activity

As a general rule, interfund activity has been eliminated from the government-wide financial statements including transfers between funds within the governmental funds.

4. Cash and Investments

The County Treasurer pools cash resources of its various funds, except those of certain special revenue and trust funds, to facilitate the management of cash during the year. The Circuit Clerk maintains an investment pool for all funds of the Circuit Clerk. Cash applicable to a particular fund is readily identifiable in the other supplementary information presented in this report. The balance in the pooled cash accounts is available to meet current operating requirements. Cash in excess of current requirements is invested in interest-bearing certificates of deposit. The County considers highly liquid investments with an original maturity of three months or less when purchased to be cash equivalents. Interest income earned on pooled investments is distributed to the appropriate funds based on the average daily balance of the investment in each fund. Investments are reported at fair value. Short-term investments are reported at cost, which approximates fair value.

5. Receivables and Payables

All receivables are reported at their gross value and, where appropriate, are reduced by the estimated portion that is expected to be uncollectible. As of November 30, 2017, the County has not recorded an allowance for uncollectible receivables. All payables are reported at their gross value.

Notes to Basic Financial Statements-Continued November 30, 2017

NOTE A - Summary of Significant Accounting Policies - Continued

6. Inventories

Inventory, where reported, is valued at cost and net realizable value. Inventory items consist of road sign materials for use by the 911 department. Reported inventory is offset by a fund balance reserve, which indicates that they do not constitute available spendable resources, even though they are a component of net current assets.

7. Capital Assets

Capital assets generally result from expenditures in the governmental funds. These assets are reported in the governmental activities column of the government-wide statement of net position but are not reported in the fund financial statements.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. The County maintains a capitalization threshold of \$500. If multiple assets whose cost is less than \$500 but the aggregate total is \$500 or more will be considered a capitalized asset. The County does possess infrastructure. However, infrastructure assets are only reported on a prospective approach beginning with the implementation of GASB 34. Improvements are capitalized; the cost of normal maintenance and repairs that do not add to the value of the asset or materially extend the asset's life are not capitalized. Depreciation on all assets is provided on the straight-line basis over the following estimated useful lives:

Infrastructures	30 years
Buildings	50 years
Building Improvements	20 years
Vehicles	2 - 15 years
Office Equipment	3 - 15 years
Computer Equipment	3 - 15 years

8. Property Taxes

Property taxes are levied based on the assessed value of property as listed on the previous January 1. Assessed values are an approximation of market value. Property taxes are recognized as revenue when they are levied because they are considered to be both measurable and available. Property taxes become a lien on the first day of the levy year and may be paid in two equal installments. The first 2016 payable 2017 real estate tax installment was due July 31, 2017 and the second installment was due September 29, 2017. The County receives its portion of significant distributions of tax receipts approximately one month after these due dates.

9. <u>Deferred Outflows/Inflows of Resources</u>

Deferred outflows of resources represent a consumption of net position that applies to a future period and so will not be recognized as an outflow of resources (expense/expenditure) until then. The County did not report any deferred outflows of resources for the year ended November 30, 2017.

Notes to Basic Financial Statements-Continued November 30, 2017

NOTE A - Summary of Significant Accounting Policies - Continued

9. <u>Deferred Outflows/Inflows of Resources - Concluded</u>

Deferred inflows of resources represent an acquisition of net position that supplies to a future period and so will not be recognized as an inflow (revenue) until that time. For the year ended November 30, 2017, the County reported deferred inflows of resources related to the County's IMRF pension obligation.

10. Compensated Absences

Full time permanent employees are granted vacation benefits in varying amounts to specified maximums depending on tenure and collective bargaining agreements with the County. Sick leave accrues to full time permanent employees to specified maximums. The Sheriff's department union contract limits the carryover amount to 80 hours of vacation time per year. All other union contracts limit the carryover amount to 140 hours of vacation time per year. Sick and personal leave cannot accumulate from year to year to be used as compensated time off.

Employees can accumulate sick days to subsequently be paid into the applicable IMRF plan. There is currently no limit on how many days may be accumulated for payment into the applicable IMRF plan. Elected and appointed officials are not eligible to accumulate vacation or sick hours. The liability for compensated absences as of November 30, 2017 is recorded as a long-term liability in the government-wide financial statements.

Because the amount due in one year is not reasonable determinable, there is no short-term liability recorded. A liability for compensated absences has not been recorded in the fund financial statements. Expenses for compensated absences are recognized in the respective funds as employee vacation and sick time is used. The liability for these compensated absences attributable to the governmental activities will be liquidated primarily by the General Fund.

11. Due To and Due From Other Funds

Interfund receivables and payables arise from interfund transactions and are recorded by all funds affected in the period in which transactions are executed.

12. Restricted Assets

Restricted assets are comprised of cash and cash equivalents and investments and represent those funds that are restricted as to use either at the time of receipt, or by action of the governing board or by legal requirements.

13. Interfund Transfers

In the fund financial statements, the County reports legally authorized transfers among funds. Transfers in are recorded by the recipient fund and transfers out are recorded by the disbursing fund.

Notes to Basic Financial Statements-Continued November 30, 2017

NOTE A - Summary of Significant Accounting Policies - Concluded

14. Long-Term Debt and Deferred Debt Expense

In the government-wide financial statements, outstanding debt is reported as a liability. Bond issuance costs, bond discounts or premiums, and the difference between the reacquisition price and the net carrying amount of refunded debt are capitalized and amortized over the respective bonds life using a method that approximates the effective interest method.

The governmental fund financial statements recognize the proceeds of debt and premiums as other financing sources of the current period. The governmental fund financial statements also recognize the payment of interest, debt principal and issuance costs as expenditures of the current period.

15. Use of Estimates

The preparation of basic financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the basic financial statements and the reported amounts of revenues, expenses, and expenditures during the reporting period. Actual results could differ from those estimates.

NOTE B - Cash and Investments

All funds in the County are allowed to invest excess funds. Each investment is accounted for in the balance sheet of the individual investing fund. Various restrictions on investments are imposed by statutes. The County is authorized to invest in securities by the Public Funds Investment Act of the Illinois Compiled Statutes, Chapter 30, Section 235/2.

The carrying amount of the County's deposits with financial institutions was \$10,050,632 excluding \$2,073 in petty cash, and the bank balance was \$12,055,612. The bank balance is categorized as follows:

ionows.		<u>Category</u>		D 1 D 1	Carrying Amount

NOTE B - Cash and Investments - Continued

Investments made by the County, including repurchase agreements, are summarized below. The investments that are represented by specific identifiable investment securities are classified as to credit risk by the three categories described below:

Category 1 - Insured or registered, or securities held by the County or its agent in the County's name

Category 2 — Uninsured and unregistered, with securities held by the counter party's trust department or agent in the County's name

Category 3 - Uninsured and unregistered, with securities held by the counter party, or by its trust department or agent but not in the County's name

<u>Interest Rate Risk</u> - As a means of limiting its exposure to fair value losses arising from interest rates, it is the County's policy to limit investments to 180 days or less. Consequently, repurchase agreements, money market accounts, and certificates of deposit are classified as cash equivalents.

Credit Risk - In compliance with Illinois state law, County investments are limited to obligations of the United States of America, obligations guaranteed by the United States of America where the payment of principal and interest are guaranteed by the United States of America, obligations of the State of Illinois or any other state, or any political subdivision or agency of the State of Illinois or of any other state, whether the interest earned thereon is taxable or tax exempt under federal law, special time deposit accounts, and certificates of deposit.

Concentration of Credit Risk - To promote competition in rates and service costs, and to limit the risk of institutional failure, County deposits and investments may be placed with multiple institutions. Therefore, the County Treasurer designates certain banks and trust companies as depositories and establishes maximum deposit levels for each. Investments are also allowable through a public treasurer's investment pool created under Section 17 of the State Treasurer Act.

<u>Custodial Credit Risk</u> - Custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned to it. The government does not have a deposit policy for custodial credit risk. The government's bank balance by categories of custodial credit risk is summarized at the beginning of this note.

<u>Investments</u> - Generally, the County's investing activities are managed under the custody of the County Treasurer and the Circuit Clerk. The Circuit Clerk will manage the investing activities for court cases and bond postings as mandated by the Court System. County funds may be invested in those instruments listed in the County's Investment Policy. The Investment Policy is written by the County Treasurer and contains the provisions authorized by the Public Funds Investment Act of the Illinois Compiled Statutes Chapter 30, Section 235/2.

As of November 30, 2017, the County held a certificate of deposit at a local financial institution and has invested excess funds with Edward Jones in the form of certificate of deposits as summarized below:

NOTE C - Municipal Retirement Fund

IMRF Plan Description

The Franklin County's defined benefit pension plan for regular employees and provides retirement and disability benefits, post-retirement increases, and death benefits to plan members and beneficiaries. The Franklin County's plan is managed by the Illinois Municipal Retirement Fund (IMRF), the administrator of a multi-employer public pension fund. A summary of IMRF's pension benefits is provided in the "Benefits Provided" section of these notes. Details of all benefits are available from IMRF. Benefit provisions are established by statute and may only be changed by the General Assembly of the State of Illinois. IMRF issues a publicly available Comprehensive Annual Financial Report that includes financial statements, detailed information about the pension plan's fiduciary net position, and required supplementary information. The report is available for download at www.imrf.org.

Benefits Provided

IMRF has three benefit plans. The vast majority of IMRF members participate in the Regular Plan (RP). The Sheriff's Law Enforcement Personnel (SLEP) plan is for sheriffs, deputy sheriffs, and selected police chiefs. Counties could adopt the Elected County Official (ECO) plan for officials prior to August 8, 2011 (the ECO plan was closed to new participants after that date).

All three benefit plans have two tiers. Employees hired before January 1, 2011, are eligible for Tier 1 benefits. Tier 1 employees are vested for pension benefits when they have at least eight years of qualifying service credit. Tier 1 employees who retire at age 55 (at reduced benefits) or after age 60 (at full benefits) with eight years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3% of the final rate of earnings for the first 15 years of service credit, plus 2% for each year of service credit after 15 years to a maximum of 75% of their final rate of earnings. Final rate of earnings is the highest total earnings during any consecutive 48 months within the last 10 years of service, divided by 48. Under Tier 1, the pension is increased by 3% of the original amount on January 1 every year after retirement.

Notes to Basic Financial Statements-Continued
November 30, 2017

NOTE C - Municipal Retirement Fund - Continued

Benefits Provided - Concluded

Employees hired on or after January 1, 2011, are eligible for Tier 2 benefits. For Tier 2 employees, pension benefits vest after ten years of service. Participating employees who retire at age 62 (at reduced benefits) or after age 67 (at full benefits) with ten years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3% of the final rate of earnings for the first 15 years of service credit, plus 2% for each year of service credit after 15 years to a maximum of 75% of their final rate of earnings. Final rate of earnings is the highest total earnings during any 96 consecutive months within the last 10 years of service, divided by 96. Under Tier 2, the pension is increased on January 1 every year after retirement, upon reaching age 67, by the lessor of:

- 3% of the original pension amount, or
- ½ of the increase in the Consumer Price Index of the original pension amount.

Employees Covered by Benefit Terms

As of December 31, 2017, the following employees were covered by the benefit terms:

	<u>Regular</u>	SLEP
Retirees and Beneficiaries currently receiving benefits Inactive Plan Members entitle to but not yet receiving benefits Active Plan Members Total	129 102 160 391	14 4 16 34

Contributions

As set by statute, the Franklin County's Regular Plan Members are required to contribute 4.5% of their annual covered salary, the Franklin County's Elected Official and Sheriff's Law Enforcement Personnel Plan Members are required to contribute 7.5% of their annual covered salary. The statute requires employers to contribute the amount necessary, in addition to member contributions, to finance the retirement coverage of its own employees. The Regular Plan Members annual contribution rate for calendar year 2017 was 11.42%, and the SLEP Plan Members annual contribution rate for calendar year 2017 was 20.84%. For the fiscal year ended December 31, 2017, Regular Plan Members contributed \$733,922 to the plan, and the SLEP Plan Members contributed \$173,144 to the plan. Franklin County also contributes for disability benefits, death benefits, and supplemental retirement benefits, all of which are pooled at the IMRF level. Contributions rates for disability and death benefits are set by IMRF's Board of Trustees, while the supplemental retirement benefits rate is set by statute.

Net Pension Liability

The Franklin County's net pension liability was measured as of December 31, 2017. The total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date.

Notes to Basic Financial Statements-Continued November 30, 2017

NOTE C - Municipal Retirement Fund - Continued

Actuarial Assumptions

The following are the methods and assumptions used to determine total pension liability for all plan members at December 31, 2017:

- The Actuarial Cost Method used was Entry Age Normal.
- The Asset Valuation Method used was Market Value of Assets.
- The Inflation Rate was assumed to be 2.5%.
- Salary increases were expected to be 3.39% to 14.25%, including inflation.
- The Investment Rate of Return was assumed to be between 7.50%.
- Projected Retirement Age was from the experience-based table of rates, specific to the type of eligibility condition, last updated for the 2017 valuation pursuant to an experience study from years 2014 to 2016.
- The IMRF-specific rates for mortality (for non-disabled retirees) were developed from the RP-2014 Blue Collar Health Annuitant Mortality Table with adjustments to match current IMRF experience.
- For Disabled Retirees, an IMRF-specific mortality table was used with fully generational projection scale MP-2017 (base year 2015). The IMRF-specific rates were developed from the RP-2014 Disable Retirees Mortality Table, applying the same adjustments that were applied for non-disabled lives.
- For Active Members, an IMRF-specific mortality table was used with fully generational projection scale MP-2017 (base year 2015). The IMRF-specific rates were developed from the RP-2014 Employee Mortality Table with adjustments to match current IMRF experience.
- There were not benefit changes during the year.
- The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense, and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return to the target asset allocation percentage and adding expected inflation. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

	Portfolio	Long-Term Expected
Asset Class	Target Percentage	Real Rate of Return
	38%	7.39%
Domestic Equity	17%	7.59%
International Equity		3.00%
Fixed Income	27%	
Real Estate	8%	6.00%
	9%	2.75-8.15%
Alternative Investments	1%	2.25%
Cash Equivalents		
Total	100%	

Notes to Basic Financial Statements-Continued
November 30, 2017

NOTE C - Municipal Retirement Fund - Continued

Single Discount Rate

A Single Discount Rate of 7.50% was used to measure the total pension liability. The projection of cash flow used to determine this Single Discount Rate assumed that the plan members' contributions will be made at the current contribution rate, and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. The Single Discount Rate reflects:

- 1. The long-term expected rate of return on pension plan investments (during the period in which the fiduciary net position is projected to be sufficient to pay benefits), and
- 2. The tax-exempt municipal bond rate based on an index of 20-year general obligation bonds with an average AA credit rating (which is published by the Federal Reserve) as of the measurement date (to the extent that the contributions for use with the long-term expected rate of return are not met).

For the purpose of the most recent valuation, the expected rate of return on plan investments is 7.50%, the municipal bond rate is 3.31%, and the resulting single discount rate is 7.50%.

Defined Benefit Pension Plan - Regular Employees

Plan Description - The County's defined benefit pension plan for Regular employees provides retirement and disability benefits, post retirement increases, and death benefits to plan members and beneficiaries. The employer plan is affiliated with the Illinois Municipal Retirement Fund (IMRF), an agent multiple-employer plan. Benefit provisions are established by statute and may only be changed by the General Assembly of the State of Illinois. IMRF issues a publicly available financial report that includes financial statements and required supplementary information (RSI). That report may be obtained online at www.imrf.org.

Fund Policy - As set by statute, the County's Regular plan members are required to contribute 4.50 percent of their annual covered salary. That statute requires employers to contribute the amount necessary, in addition to member contributions, to finance the retirement coverage of its own employees. The employer annual required contribution rate for calendar year 2017 was 11.42 percent. The employer also contributes for disability benefits, death benefits and supplemental retirement benefits, all of which are pooled of the IMRF level. Contribution rates for disability and death benefits are set by the IMRF Board of Trustees, while the supplemental retirement benefits rate is set by statute.

November 30, 2017

NOTE C - Municipal Retirement Fund - Continued

Defined Benefit Pension Plan - Regular Employees - concluded

Annual Pension Cost - The required contribution for calendar year 2017 was \$733,922.

Three Year Trend Information for the Regular Plan

Calendar	Annual	Percentage		
Year	Pension	of APC	Net P	ension
Ending	Cost (APC)	<u>Contributed</u>	<u>Obli</u>	gation_
12/31/17	\$ 733,922	100%	\$	0
12/31/16	\$ 693,658	100%	\$	0
12/31/15	\$ 583,543	100%	\$	0

The required contribution for 2017 was determined as part of the December 31, 2015, actuarial valuation using the entry age normal actuarial cost method. The actuarial assumptions at December 31, 2015 included (a) 7.5 percent investment rate of return (net of administrative and direct investment expense), (b) projected salary increases of 3.50% a year, attributable to inflation, (c) additional projected salary increases ranging from 0.4% to 10% per year depending on age and service, attributable to seniority/merit, and (d) post retirement benefit increases of 3% annually. The actuarial value of your employer Regular plan assets was determined using techniques that spread the effects of short-term volatility in the market value of investments over a five-year period with a 20% corridor between the actuarial and market value of assets. The employer Regular plan's unfunded actuarial accrued liability at December 31, 2015 is being amortized as a level percentage of projected payrolls on an open 26 year basis.

Fund Status and Funding Progress – As of December 31, 2017, the most recent actuarial valuation date, the Regular plan was 86.50 percent funded. The actuarial accrued liability for benefits was \$16,276,873 and the actuarial value of assets was \$14,079,914 resulting in an underfunded actuarial accrued liability (UAAL) of \$2,196,959. The covered payroll for calendar year 2017 (annual payroll of active employees covered by the plan) was \$6,426,640 and the ratio of the UAAL to the covered payroll was 34 percent.

Defined Benefit Pension Plan - Sheriff's Law Enforcement Personnel

Plan Description - The County's defined benefit pension plan for Sheriff's Law Enforcement Personnel provides retirement and disability benefits, post retirement increases, and death benefits to plan members and beneficiaries. The employer plan is affiliated with the Illinois Municipal Retirement Fund (IMRF), an agent multiple-employer plan. Benefit provisions are established by statute and may only be changed by the General Assembly of the State of Illinois. IMRF issues a publicly available financial report that includes financial statements and required supplementary information (RSI). That report may be obtained online at www.imrf.org.

Defined Benefit Pension Plan - Sheriff's Law Enforcement Personnel - Concluded

Fund Policy - As set by statute, the County's Sheriff's Law Enforcement Personnel plan members are required to contribute 7.50 percent of their annual covered salary. That statute requires employers to contribute the amount necessary, in addition to member contributions, to finance the retirement coverage of its own employees. The employer annual required contribution rate for calendar year 2017 was 20.84 percent. The employer also contributes for disability benefits, death benefits and supplemental retirement benefits, all of which are pooled at the IMRF level. Contribution rates for disability and death benefits are set by the IMRF Board of Trustees, while the supplemental retirement benefits rate is set by statute.

Annual Pension Cost - The required contribution for calendar year 2017 was \$173,144.

Three Year Trend Information for the Sheriff's Law Enforcement Personnel Plan

Calendar Year Ending 12/31/17	Annual Pension Cost (APC) \$ 173,144	Percentage of APC <u>Contributed</u> 100%	 ension gation 0
12/31/16	\$ 182,257	100%	\$ 0
12/31/15	\$ 185,169	100%	\$

The required contribution rate for 2017 was determined as part of the December 31, 2015, actuarial valuation using the entry age normal actuarial cost method. The actuarial assumptions at December 31, 2015 included (a) 7.5 percent investment rate of return (net of administrative and direct investment expense), (b) projected salary increases of 3.50% a year, attributable to inflation, (c) additional projected salary increases ranging from 0.4% to 10% per year depending on age and service, attributable to seniority/merit, and (d) post retirement benefit increases of 3% annually. The actuarial value of your employer Sheriff's Law Enforcement Personnel plan assets was determined using techniques that spread the effects of short-term volatility in the market value of investments over a five-year period with a 20% corridor between the actuarial and market value of assets. The employer Sheriff's Law Enforcement Personnel plan's unfunded actuarial accrued liability at December 31, 2015 is being amortized as a level percentage of projected payrolls on an open 26 year basis.

Fund Status and Funding Progress - As of December 31, 2017, the most recent actuarial valuation date, the Sheriff's Law Enforcement Personnel plan was 94.91 percent funded. The actuarial accrued liability for benefits was \$3,967,313 and the actuarial value of assets was \$3,765,213, resulting in an underfunded actuarial accrued liability (UAAL) of \$202,100. The covered payroll for calendar year 2017 (annual payroll of active employees covered by the plan) was \$830,827 and the ratio of the UAAL to the covered payroll was 24 percent.

The schedule of funding progress, presented as required supplemental information (RSI) following the notes to the financial statements, presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability for benefits for all three plans.

Notes to Basic Financial Statements-Continued November 30, 2017

NOTE D - Social Security

Employees not qualifying for coverage under the Illinois Municipal Retirement Fund are considered "non-participating employees." These employees and those qualifying for coverage under the Illinois Municipal Retirement Fund are covered under Social Security. The County paid \$606,860, the total required contribution for the current fiscal year.

NOTE E - Short and Long-Term Debt

The County is subject to the Municipal Finance Law of Illinois, which limits the amount of debt that may be incurred (exclusive of revenue bonds) by the County to 2.875 percent of its assessed valuation.

Therefore, the County's legal debt limitation and legal debt margin as of November 30, 2017 was \$9,799,981 and \$7,040,118, respectively.

Governmental Activities:

2012 Revenue Bond Payable

The Franklin County Board is subject to the provisions of 50 ILCS 405/1, which allows them to borrow funds for specified purposes. The County Board entered into a long-term debt arrangement with People's National Bank on August 9, 2005 for the construction of a juvenile detention center. This debt was refinanced on April 1, 2012 in form of alternative revenue bonds. The refinanced debt will be fully paid on December 1, 2028. This refinanced debt agreement bonded \$2,910,000 for 16 years at interest rates ranging from 2.7% to 5.9%. The bond agreement calls for semi-annual interest and annual principal payments. The combined annual debt and interest payments range from \$185,393 to \$244,800 per year.

The balance of the bond payable at November 30, 2017 is \$2,185,000. The County paid \$93,695 of interest on the bonds during the fiscal year.

Southern Illinois Bank 2013 Note Payable

The County Board issued taxable debt certificates of \$295,000 with Southern Illinois Bank on April 1, 2013 with an interest rate of 4.25%. The debt certificates call for semi-annual interest and annual principal payments. The debt certificates are due October 1, 2018.

The balance of the note payable at November 30, 2017 is \$55,000. The County paid \$5,175 of interest on the note during the fiscal year.

Southern Illinois Bank 2016 Note Payable

The County Board issued taxable debt certificates of \$550,000 with Southern Illinois Bank on February 15, 2017 with interest rates ranging from 3.75% to 4.75%. The debt certificates call for semi-annual interest and annual principal payments. The debt certificates are due on October 1, 2034.

The balance of the note payable at November 30, 2017 is \$519,863. The County paid \$4,695 of interest on the note during the fiscal year.

Notes to Basic Financial Statements-Continued November 30, 2017

NOTE E - Short and Long-Term Debt - Continued

1. Summary of Debt Transactions

The general long-term debt as of November 30, 2017 is as follows:

	November 30, 2016		Additions		Deductions		November 30, 2017		ounts Due One Year

NOTE H - Assessed Valuation and Taxes Levied

Property tax is levied each year on all taxable real property located in the County. The board passed the 2016 levy in December 2016. Property taxes attach an enforceable lien on property as of January 1 and are payable in August and September, respectively. The County distributed the tax monies on August 18, 2017, September 25, 2017, November 22, 2017 and March 9, 2018. Taxes recorded in these financial statements are from the 2016 and prior tax levies.

NOTE K - Interfund Receivables and Payables - Concluded

Due from/to other funds balances at November 30, 2017 for the fiduciary funds, were as follows:

Fund	Due From Other Funds	Due To Other Funds		
Fiduciary Funds: TVA Tax Collector Circuit Clerk Mobile Home Privilege Tax Forfeiture Redemption Land Management Interest Earned on Real Estate Taxes Federal Housing Total Fiduciary Funds	\$ 0 433,973 0 0 31,231 0 0 0 \$ 465,204	\$ 49,279 114,633 134,612 146,413 100,482 49,982 31,231 87,817 \$ 714,449		
Interfund Activity Elimination	(465,204)	(465,204)		
Government-Wide Interfund Receivable and Payable Balances	<u>\$0</u>	<u>\$ 249,245</u>		

Purpose of Interfund Receivables and Payables

The funds with interfund payables collect fees and record payroll expenses that are due to other funds at the end of each month. The majority of the fees and payroll collected by the funds are due and payable to the General Fund. Subsequent to the balance sheet date, the balances of the routine interfund receivables and payables were refunded.

Non-Routine Interfund Payable

During the fiscal year ended November 30, 2017, the County General Fund incurred a material interfund payable due to the Special County Bridge Fund in the amount of \$450,000. The interfund payable was incurred to enable the County General Fund to meet its cash flow obligations at the time, inclusive of payroll obligations. As of November 30, 2017, the balance on this internal fund borrowing was \$450,000.

Transactions between funds are representative of lending/borrowing arrangements and are required to be reimbursed by the respective fund. All interfund transactions between governmental funds and internal service funds are eliminated on the government-wide statements.

NOTE L - Facility Maintenance

Per the Provisions of the Illinois Compiled Statutes, the Franklin County Sheriff provides for the maintenance of all Franklin County facilities, inclusive of the Franklin County Jail.

Notes to Basic Financial Statements-Continued
November 30, 2017

NOTE M - Risk Management

Significant losses are covered by commercial insurance for all major programs: property, liability, and workers compensation. During the year ended November 30, 2017, there were no significant reductions in coverage. Also, there have been no settlement amounts which have exceeded insurance coverage in the past three years.

NOTE N - Interfund Operating Transfers

Transfers are used to (1) move revenues from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them, (2) move receipts restricted to debt service from the funds collecting the receipts to the debt service fund as debt service payments become due, and (3) use unrestricted revenues collected in the general fund to finance various programs accounted for in the other funds in accordance with budgetary authorizations.

The following offices collect fees, deposit them daily into fee accounts held by the office holder and subsequently turn over all fees collected to the County General Fund:

Circuit Clerk, County Clerk, Sheriff, and State's Attorney.

Individual fund operating transfers for the fiscal year ended November 30, 2017, were as follows:

The government-wide transfer of \$926,033 is required in order to present the IMRF obligations and contributions on the face of the government-wide financial statements.

The purpose of the transfer of funds are highlighted below:

- (a) To transfer funds for employee fringe benefits.
- (b) To transfer funds for the renewal of the interfund payable.
- (c) To transfer funds for purchase of Dodge Ram vehicle for Sheriff's Department.
- (d) To transfer funds for operating expenses and fees collected.
- (e) To transfer funds for debt payments.
- (f) To transfer funds for County Highway projects and operating expenses.

NOTE O - Federal and State Grants

In the normal course of operations, the County receives grant funds from various federal and state agencies. The grant programs are subject to audit by agents of the granting authority, the purpose of which is to ensure compliance with conditions precedent to the grant of funds. Any liability for reimbursement that may arise as the result of these audits is not believed to be material.

Notes to Basic Financial Statements-Continued
November 30, 2017

NOTE P - Uncertainties & Contingencies

The County has received funding from state and federal grants in the current and prior years which are subject to audits by the granting agencies. The board of commissioners believes any adjustments that may arise from those audits will be insignificant to county operations.

The County is a defendant in a number of legal actions. While the final outcome cannot be determined at this time, the County is of the opinion that the ultimate liability, if any, from the final resolution of these matters will not have a material effect on the County's financial statements.

NOTE Q - Economic Dependence

Franklin County, Illinois is fiscally dependent on funding from Federal and State of Illinois sources. Due to the State of Illinois' financial constraints, state payment delays or eliminations are possible for the fiscal year ending November 30, 2018. Changes in the amounts received, or timing of the amounts received, from the State of Illinois, could result in cash flow problems for Franklin County, Illinois, and may require budget amendments and cuts of services.

NOTE R - Fund Equity

At November 30, 2017, the following funds had a deficit in the fund balance or net position:

Court Security Fund
Recording and Computer Fund
Transportation Grant Fund
Child Support Fund
Hazardous Material Grant Fund
Fire Construction Grant
State's Attorney Records Automation

NOTE S - Encumbrances

The County does not use encumbrance accounting, in which purchase orders, contracts, and other commitments for the expenditures of funds are recorded in order to reserve that portion of the applicable appropriation. Therefore, no amounts for encumbrances are reported in the basic financial statements.

NOTE T - Rent Expense

The Franklin County Highway Department encounters rent income and expense between the various funds it maintains. Generally, the County Highway Fund has purchased equipment and provides the funding for payroll and fringe benefits during the year. The other funds, such as Motor Fuel Tax, that incur projects during the year and utilize the equipment and manpower paid for by the County Highway Fund will reimburse the County Highway Fund for these expenses. These transactions have been disclosed in the financial statements as operating transfers in and out. For the fiscal year ended November 30, 2017, the County Highway Fund received \$525,000 in rent income from other highway funds that has been disclosed in the financial statements as transfers in from other funds.

Notes to Basic Financial Statements-Concluded November 30, 2017

NOTE U - Post Employment Benefits

In addition to the pension benefits described in Note C, the County provides post-employment benefit options for healthcare, life insurance, and dental insurance to eligible retirees, terminated employees, and their dependents. The benefits are provided in accordance with County ordinances, collective bargaining agreements, and the Consolidated Omnibus Budget Reconciliation Act of 1985 (COBRA). The criteria to determine eligibility include: years of service, employee age, disability due to line of duty, and whether the employee has vested in the respective retirement plan. The County funds the benefits on a pay-as-you-go basis. Eligible employees are required to pay set premiums for all or a portion of the cost with the County recognized for post-employment benefits. Expenses for post-retirement benefits are recognized as eligible employee claims. For a detailed description of the Plan's provisions, participants should consult the plan agreement.

NOTE V – Subsequent Event

These financial statements considered subsequent events through May 31, 2018, the date the financial statements were available to be released.

NOTE W - Prior Period Adjustment

The fund balance and net position of the County as of December 1, 2016 has been increased by \$744,192 and \$1,005,551, respectively, in the governmental funds and \$4,358 in the fiduciary funds for prior period adjustments as detailed below. The adjustments had no effect on the change in net position for the current year.

Notes to Required Supplementary Information November 30, 2017

NOTE A - Summary of Actuarial Methods and Assumptions Used in the Calculation of the 2017 Contribution Rate

Valuation Date:

Notes

Actuarially determined contribution rates are calculated as of

December 31 each year, which are 12 months prior to the beginning of the fiscal year in which contributions are reported.

Methods and Assumptions Used to Determine 2017 Contribution Rates

Actuarial Cost Method:

Aggregate Entry Age Normal

Amortization Method:

Level percentage of payroll, closed

Remaining Amortization Period:

26-year closed period

Early Retirement Incentive Plan liabilities: a period up to 10 years

selected by the Employer upon adoption of ERI.

SLEP supplemental liabilities attributable to Public Act 94-712

were financed over 21 years.

Asset Valuation Method:

5-year smoothed market; 20% corridor

Wage Growth:

3.50%

Price Inflation:

2.75%, approximate; No explicit price inflation assumption is

used in this valuation.

Salary Increases:

3.75% to 14.50% including inflation

Investment Rate of Return:

7.50%

Retirement Age:

Experience-based table of rates that are specific to the type of eligibility condition. Last updated for the 2014 valuation

pursuant to an experience study of the period 2011-2013.

Mortality:

For non-disabled, disabled, and active retirees, an IMRF specific mortality table was used with fully generational projection scale MP-2014 (base year 2012). For retirees, the IMRF specific rates were developed from the RP-2014 Blue Collard Health Annuitant Mortality Table with adjustments to match current IMRF experience. For active members, the IMRF specific rates were developed form the RP-2014 Employee Mortality Table

with adjustments to match current IMRF experience.

Other Information:

Notes

There were no benefit changes during the year.

^{*}Based on Valuation Assumptions used in the December 31, 2015 actuarial valuation.

^{**}These schedules are presented to illustrate the requirement to show information for 10 years. However, until a full 10-year trend is compiled, information in presented for those years for which information is available.

Notes to Required Supplementary Information-Concluded
November 30, 2017

NOTE B - Budgets and Budgetary Accounting

The County annually prepares a budget and appropriations ordinance which includes most general, special revenue, and trust type funds. Once approved, the County Board may amend the legally adopted budget when unexpected modifications are required in the estimated revenues and/or appropriations. The budget information presented reflects the originally adopted budget and any budget modifications. The budget initiation process follows applicable statutes and regulations. The County does not employ encumbrance accounting, under which purchase orders, contracts, and other commitments for the expenditure of monies are recorded in order to reserve that portion of the applicable appropriation. Each fund's budget and appropriations ordinance is prepared on a detailed line item basis. Revenues are budgeted by source. Expenditures are budgeted by department and class as follows: services, materials, capital outlay, transfers, and debt service. This constitutes the legal level of control. Expenditures may not exceed appropriations at this level. Budget revisions at this level are subject to final review by the County Board. The budgets for all funds are prepared on the GAAP basis of accounting.

The annual budget is prepared by fund, function, and object, and includes information on the prior year, current year estimates, and requested appropriations for the next fiscal year. Prior to December 1, the proposed budget is presented by the County Board for review. The Board holds all applicable public hearings and may add to, subtract from, or change appropriations, but may not, however, change the form of the budget. All changes made must be changed by an affirmative vote of the County Board. The County's department heads and elected officials may make transfers of appropriations within a department. Transfers of appropriations between departments require the approval of the County Board. If requested, the Board may, by two-thirds majority vote, make supplemental or emergency appropriations from available resources and may reduce or transfer appropriations among funds or departments.

NOTE C - Stewardship, Compliance, and Accountability

The following funds' expenditures exceeded the budget amount for such expenditures:

National School Lunch
Probation Services
Social Security
Recording and Computer
Tax Sale Automation
Animal Control Donation
Social Security Administration

Fringe Benefit
Youth Diversion
Deeth Certificate

Death Certificate Surcharge Child Support

Hazardous Material Grant

EMA Donation Coroner Fees Drug Enforcement

State's Attorney Records Automation

2013 Certificate & Interest Payment

Bond and Interest

Senior Citizens Services

CASA

General Fund

FRANKLIN COUNTY, ILLINOIS

Listing of Individual Funds – Type and Primary Function
FIDUCIARY FUNDS - concluded
November 30, 2017

Fund Illinois Municipal Retirement Retirement Fund	Type of Fund Pension Trust	Primary Function(s) of Fund Disbursement of county and employee funds for expenditures for the Illinois Municipal System.
Escheat	Private-Purpose	Custodial receipt and subsequent accounting for proceeds of sale of property of deceased taxpayers with no known heirs.
Tourism	Private-Purpose	Receipt of bed tax from county hotels and motels and subsequent disbursement to the Franklin County Tourism Bureau.

Schedule of Findings and Questioned Costs
For the Year Ended November 30, 2017

FINDING 1: 2017-1

Segregation of duties is limited (Significant Deficiency)

Criteria:

Generally Accepted Accounting Principles

Condition:

There is limited segregation of duties over cash receipts, cash disbursements, recording of transactions and reconciliation of the bank accounts in the Treasurer's

Office.

Cause:

The cost versus the benefit of hiring additional qualified staff is not conducive for the

County.

Potential Effect:

Transaction and reporting errors could occur and not be detected in a timely manner.

Recommendation:

The County should segregate or rotate duties so that no one individual handles a transaction from its inception to its completion. While the County's current staffing arrangement may not permit an adequate segregation of duties in all respects for an effective system of internal control procedures, it is important that you are aware of

this condition.

Responsible Party and Implementation Date:

The responsible party for this recommendation is the Franklin County Treasurer. The Treasurer is currently working on delegating responsibilities within the Treasurer's Office to improve the controls and segregation of duties.

Management Response:

They are aware of this condition. They will review their staffing arrangements,

assignment of duties and employee bonding.

FINDING 2: 2017-2

(Repeat Finding)

Lack of Stabilization Policy (Significant Deficiency)

Criteria:

Governmental Auditing Standards Board Statement No. 54

Condition:

The County does not have a formal stabilization plan in the event of emergency

situations or when revenue shortages or budgetary imbalances arise.

Cause:

The County does not have the current cash flows to set aside funds.

Potential Effect:

The County would not be prepared financially in the event of emergency situations or

when revenue shortages or budgetary imbalances arise.

Schedule of Findings and Questioned Costs - concluded For the Year Ended November 30, 2017

FINDING 2: 2017-2 (Repeat Finding)

Lack of Stabilization Policy (Significant Deficiency) - concluded

Recommendation:

The County should establish a formal stabilization plan to set aside funds for use in emergency situations, or when revenue shortages, or budgetary imbalances arise. The stabilization plan should include provisions and controls that dictate the circumstances under which they can be spent. The stabilization plan should include amounts for budget or revenue stabilization, working capital needs, contingencies or emergencies, compensated absences, Courthouse repairs and maintenance and other designated purposes.

Responsible Party and Implementation Date:

The responsible party for this recommendation is the Franklin County Board. A future implementation date is pending as the cash flow and revenue stream improves.

Management Response:

The County Board is aware of the finding and GASB 54 requirement and plan to formalize a plan when more cash flows are available.

Schedule of Prior Findings and Questioned Costs

For the Year Ended November 30, 2017

FINDING: 2016-1

Condition:

Lack of compliance with the County's Capital Asset Policies and Procedures

Current Status:

Corrective actions were taken.

FINDING: 2016-2

Condition:

Lack of implementation of Governmental Auditing Standards Board No. 54

Current Status:

Corrective actions were taken by implementing a fund balance policy. However, the

County Board still lacks a formal stabilization plan.
